

Providing Solutions for Drug Discovery Workflow

**Target
Identification**

**Compound
Screening**

**Hit
Identification**

**Lead
Identification &
Optimisation**

**Clinical Trials &
FDA Approval**

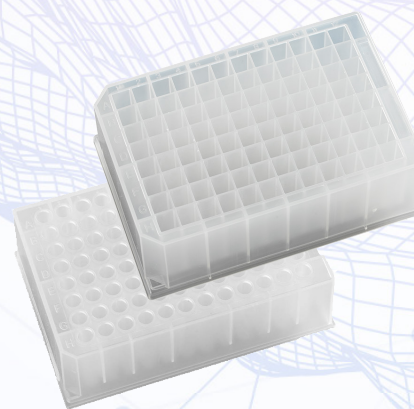

Biological Assays

Tissue Culture Plates
ChIP, ELISA, DNA Extraction

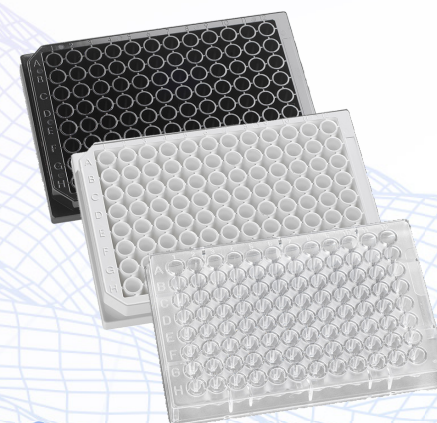

Instruments

Solvent Evaporators
Adhesive and Heat Sealers
Positive Pressure Manifolds
Mat and Cap Applicators

Deep Well Microplates

Compound Screening
Sample Collection & Storage
SPE, SLE & PLR
Liquid Handling Reservoirs

Assay Microplates

Fluorescent Imaging
Luminescent Imaging
ELISA
CCD Imaging
